

Case study

Dibden View

PROJECT LOCATION

Gosport

PROJECT TYPE

New Build
Care
Home
Building

A few years ago our healthcare department completed the New Build of Dibden View care home in Gosport for Choice Care.

This consisted of the construction of a brand new 9 bedroom care home for people with learning disabilities. The team built the home from the ground up and included all construction, landscaping, configuring of electrical, gas and water services and full decorations and fit out.

The space created was bright and high quality with consideration taken for all of the specific needs that the residents would require. It is intended that the residence is seen as homely and comfortable for all and we made sure to avoid anything that would have made the space clinical and uninviting.
